Dear all,

To ease communication across borders for people affected by the situation in Ukraine– helpers as well as refugees - the European Commission is urgently looking for **data donations of bi-/multilingual corpora for Ukrainian to/from all EU languages**.

The data will be used to train **an automatic translation system** for translation **between Ukrainian and EU languages**.

How you can help:

CONTACT US TO SHARE RELEVANT HINTS AND DATASETS

by sending an email
to info@lr-coordination.eu

OR

DIRECTLY SHARE RELEVANT DATA SETS AND SOURCES

by uploading them to the ELRC-SHARE
at https://elrc-share.eu

For further details about the European Language Resource Coordination, please check the ELRC website at www.lr-coordination.eu.

Any language data and/or pointers will be immensely useful to overcome language barriers between Ukrainian and EU languages!

Thank you infinitely for your support!
